REDDWERKS PTL

Reddwerks offers advanced Warehouse Performance Management (WPM) solutions that simplify, centralize, and audit all order planning, fulfillment, and exception activities. WPM is the key to moving items faster, with less labor and capital investment, while simultaneously improving transparency and accuracy. WPM solutions offer dramatic increases in labor rates and utilization, improve order accuracy, and expand overall capacity, while reducing order dwell times, shorts, and exceptions. Our 100% web-based graphical interface gives you the power to plan, process, track, and trend warehouse performance real-time from anywhere, whether it's your warehouse floor or corporate office. Reddwerks' WPM solutions unlock the potential that lies within your four walls.
